

|                             | Safety Data Sheet  |
|-----------------------------|--|
| 1. Identification           |  |
| Product Name:               | Organic Cajuput Essential Oil  |
| Botanical/INCI:             | Melaleuca cajuputi   |
| Synonyms:                   | Cajeput  |
| CAS Number:                 | 8008-98-8  |
| Product Uses:               | Personal care, Aromatherapy  |
| Manufacturer/Supplier:      | Amrita Aromatherapy, Inc.®   |
| Address:                    | 1900 W. Stone Ave., Suite C Fairfield, IA 52556  |
| Phone:                      | 1(800)410-9651 or 1(641)472-9136   |
| Fax:                        | 1(641)472-8672   |
| Emergency Contact:          | Poison Control: 1(800)222-1222   |
| 2. Hazard(s) Identification |  |
| Appearance:                 | Liquid   |
| Signal Word:                | Danger   |
| Statement of Hazard:        | H226: Flammable liquid and vapor   |
|                             | H304: May be fatal if swallowed and enters airways   |
|                             | H315: Causes skin irritation   |
|                             | H317: May cause an allergic skin reaction  |
|                             | H411: Toxic to aquatic life with long lasting effects  |
|                             | P210 - Keep away from heat/sparks/open flames/hot  |
|                             | surfaces – No smoking. P243 - Take action to prevent static discharges.                                      |
|                             | P261 - Avoid breathing dust/fume/gas/mist/vapors/spray.  |
|                             | P272 - Contaminated work clothing should not be allowed  |
| Precautionary Statements:   | out of the workplace.  |
|                             | P273 - Avoid release to the environment.   |
|                             | P280 - Wear protective gloves/protective clothing/eye  |
|                             | protection/face protection.  |
|                             | P301+P310+P331 - IF SWALLOWED: Immediately call a  |
|                             | POISON CENTER or doctor/physician. Do NOT induce   |
|                             | vomiting.  |
|                             | P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water |
|                             | [or shower].   |
|                             | P333+P313 - If skin irritation or a rash occurs: Get medical   |
|                             | advice/attention.  |
|                             | P362 - Take off contaminated clothing and wash before  |
|                             | reuse.   |
|                             | P370+P378 - In case of fire: Use Foam, Dry chemical,   |
|                             | Caron Dioxide, B class Extinguishers for extinction. DO  |
| Application Toyloit         | NOT use water spray  |
| Aspiration Toxicity:        | Category 2   |
| Skin Irritation:            | Category 2   |
| Skin Sensitization:         | Category 1   |
| Acute Aquatic Toxicity:     | Category 2   |
| Chronic Aquatic Toxicity:   | Category 2   |
| Flammable Liquids:          | Category 3   |
|                             | B/EEC or 1999/45/EC. For the full text of the R-phrases mentioned in this                                    |
| Section, see Section 16.    |  |

| Ingredients List: 100% Organic Cajuput Esse  | ntial Oil  |                |             |                               |                 |  |
| Component  |  | CAS Number     | Weight %    | Classification<br>1272 / 2008 | REACH<br>Number |  |
| 1.8 cineole/Eucalyptol   |  | 470-82-6       | <=60%       | FL3, AspT1,<br>SI2, SS1, AC2  | 207-431-5       |  |
| alpha terpineol  |  | 98-55-5        | <=13%       | SI2, EI2                      | 202-680-6       |  |
| beta caryophyllene   |  | 87-44-5        | <=2%        | AspT1, SS1                    | 201-746-1       |  |
| alpha humulene   |  | 6753-98-6      | <=1%        | AspT1, SI2,<br>EI2, STOT-SE3  | 229-816-7       |  |
| (See   | Section 8 for  | Exposure Limit | s)          |                               |                 |  |
| 4. First Aid Measures  |  |                |             |                               |                 |  |
| General Advice:  | Seek medical attention in case of any discomfort. Observe risk of aspiration if vomiting occurs. May cause lung damage if swallowed.                     |                |             |                               |                 |  |
| Eye Contact:   | Remove contact lenses. Flush repeatedly with water for 15 minutes; contact physician   |                |             |                               |                 |  |
| Skin Contact:  | Remove contaminated clothing, wash with water and soap. Contact physician if redness or irritation develop.  |                |             |                               |                 |  |
| Ingestion:   | Do NOT induce vomiting. Rinse out mouth. Do NOT give water or milk unless directed by medical professional. Contact POISON CENTER or doctor immediately. |                |             |                               |                 |  |

|   | "Naturally the Purest"  |  |  |
|---|---|--|--|
| Inhalation:                                 | Remove to fresh air and contact a physician if symptoms such as wheezing, coughing, shortness of breath, or burning in the mouth, throat, or chest occur.   |  |  |
| 5. Fire Fighting Measures                   |   |  |  |
| Extinguishing Media:                        | SUITABLE: Foam, Dry chemical, Caron Dioxide, B class Extinguishers NON-SUITABLE: Water Jet  |  |  |
| Hazardous Combustion Products:              | Carbon Dioxide and Carbon Monoxide  |  |  |
| Fire Fighting Procedures:                   | When possible, prevent environmental run-off. Use self-contained breathing apparatus and protective clothing.   |  |  |
| Fire / Explosion Hazards:                   | Carbon monoxide, carbon dioxide, acidic fumes, smoke, or flammable vapor may be released during oil fires. Flammable liquid and vapor. Vapors are heavier than air and may travel along surfaces to remote ignition sources and flash back.   |  |  |
| 6. Accidental Release Measures              |   |  |  |
| Health and Safety Precautions:              | Personnel involved in cleanup should wear appropriate personal protective equipment (see Section 8). Minimize exposure. Eliminate all sources of ignition and ventilate area using explosion-proof equipment.   |  |  |
| Measures for Cleaning and Collecting:       | Absorb spill with non-combustible matter (such as detergentdo not use solvents) and transfer to containers. Clean spill area thoroughly.  |  |  |
| Measures for Environmental Protections:     | Do NOT allow to enter the sewer or outdoor environment. Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.  |  |  |
| Additional Considerations for Large Spills: | Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, or diatomaceous earth in drums for waste disposal. Avoid allowing product to reach sewage system or any waterways. Inform respective authorities in case of seepage into sewage system or waterways. |  |  |
| 7. Handling and Storage                     |   |  |  |
| General Handling:                           | Avoid contact with eyes, skin, mucous and clothing. Wear required PPE. Observe good hygiene guidelines and general safety practices. Do NOT eat, drink, or smoke when handling. Ensure workspace is properly ventilated. Wash hands after handling.   |  |  |
| Storage Conditions:                         | Store in tightly sealed glass container, away from heat, light, and other sources of ignition; in a well-ventilated, dry, and cool location. Keep away from strong oxidizing agents.  |  |  |
| 8. Exposure Controls / Personal Pro         | tection   |  |  |
| Exposure Limit:                             | This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.   |  |  |
| Engineering Controls:                       | Extraction or global ventilation. Equipment should be grounded. Provide eyewash station.  |  |  |
| Environmental Exposure Controls:            | Avoid discharging into sewer or environment. Do NOT eat, drink, or smoke near or after handling product.  |  |  |
| Personal Protective Equipment (PPE):        | Work clothing worn by personnel shall be laundered regularly. After contact with the product, all parts of the body that have been soiled must be washed  |  |  |
| Hands:                                      | Wear suitable protective gloves (resistant to chemical agents in accordance with standard EN374) in the event of prolonged or repeated skin contact.  |  |  |
| Eyes:                                       | Avoid contact with eyes. Use eye protectors (safety goggles in accordance with standard EN166) designed to protect against liquid splashes.   |  |  |

Toxicological Information General Information: Product does not present an acute toxicity hazard based on known or supplied information.  Acute Toxicity: Not Determined Irritation / Sensitization: Not Determined Skin Absorption: No adverse effects with normal skin. However, potentially harmful amounts of material may be absorbed across markedly abraded skin when contact is sustained.  Carcinogen Status: Carcinogenicity of the mixture has not been determined. Not listed as carcinogens by IARC, US OSHA or NTP.  12. Ecological Information Environmental Overview: The environmental characteristics of this mixture have not been fully evaluated. Releases to the environment should be avoided.  Eco-toxicity Effects: Very toxic to aquatic organisms; may cause long-term adverse effects in the aquatic environment.  Chemical: 1.8 Cineole/Eucalyptol is generally recognized as safe (GRAS) to humans and used in cough syrups, foods, candies, and scented products. It is harmful to aquatic life.  Persistence and Degradability: Biodegradation is expected Bio-accumulative Potential: Bioaccumulation is unlikely Mobility in Soil: Not Determined Other Adverse Effects: Avoid exposure to marine environments and waterways  13. Disposal Considerations  |                                |  |  |  |

| Marine Pollutant:  | Yes   |  |  |
| 15. Regulatory Information   |   |  |  |
| EU Symbol:   |   |  |  |
| EU Indication of Danger:   | F – Flammable   |  |  |
|  | Xn – Harmful  |  |  |
|  | N – Dangerous to the environment  |  |  |
| EU Risk Phrases:   | R10 – Flammable.  |  |  |
|  | R 20/22 – Harmful by inhalation and if swallowed.   |  |  |
|  | R21 – Harmful in contact with skin.   |  |  |
|  | R 51/53 – Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.   |  |  |
| EU Safety Phrases:   | S 7 – Keep container tightly closed   |  |  |
| ,  | S 16 – Keep away from sources of ignition – No smoking  |  |  |
|  | S 23 – Do not breathe gas/fumes/vapour/spray (appropriate wording to be   |  |  |
|  | specified by the manufacturer)  |  |  |
|  | S 27/28 – After contact with skin, take off immediately all contaminated  |  |  |
|  | clothing, and wash immediately with plenty of soap and water.   |  |  |
|  | S 29/56 – Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point.  |  |  |
|  | S 33 – Take precautionary measures against static discharges  |  |  |
|  | S 36/37/39 – Wear suitable protective clothing, gloves, and eye/face  |  |  |
|  | protection.   |  |  |
|  | S 43 – In case of fire use Foam, Dry chemical, Caron Dioxide, B class   |  |  |
|  | Extinguishers for extinction. DO NOT use water spray S 61 – Avoid release to the environment. Refer to special instructions/safety  |  |  |
|  | data sheet  |  |  |
|  | S 62 – If swallowed, do not induce vomiting: seek medical advice  |  |  |
|  | immediately and show this container or label  |  |  |
